
Values with Line

OBJECTIVE	Through the use of hatching, cross-hatching, stippling and other techniques you can create a wide range of values. A variety of values adds contrast and visual interest to a drawing or design, whether it is representational or abstract.
MATERIALS	• 9" x 12" sheet of paper • pencil • ink pen
GRADING	10 points (5 points for timely completion and following directions + 5 points for using a variety of values that add contrast and visual interest)
INSTRUCTIONS	1) Practice creating values with line using different techniques on the attached sheet of paper. 2) Create a 6" x 6" drawing in pencil—this may be representational (a still life or landscape, for example) or an abstract design (see examples below). 3) Use ink pen to create values using a single or various techniques on your drawing. Erase pencil lines after completing the ink drawing.
